Dealers in Medicine.

Sherley's Sarsaparilla commands the largest sale and is the best preparation before the public. When purchasing stock be sure and take no other.

## First Flash from California!

We publish in our telegraph column, this morning, the first election news from California. The returns indicate that the State has gone for Buchanan by a considerable majority. This we expected.

### Meeting of Congress.

Congress convened to-day. By the most recent accounts from Washington, we are advised that there will be a large number of vacant seats during the first day or two of the session—the members arriving slowly. An organization, however, will doubtless be effected to-day, in which event we hope to be able to lay the Message of the President before our readers to-morrow morning.

**The River.**—There have been heavy rains above, and river men are hopeful that we will soon have rise. The river is rising at this point, and the telegraph informs us that there is every prospect that there will be a rise now at that point immediately. The Kentucky river and the smaller streams are all full.

A private dispatch from Pittsburgh Saturday night, says that there were four feet water in the channel, and the river rising rapidly, with continued rains.

The river at this point was again at a stand last evening, with prospects of rain.

**Many springs** demand never failing before the extreme drought of the past season, but which completely dried up, are revived again and are sending out their usual volume of water.

The rains of last Friday not only thoroughly watered the parched earth, but has revived the springs, swollen the streams generally, and as a consequence has made the Ohio again a navigable stream for steamboats.

**A STATE WITHOUT TAXES.**—The State of Texas is in a most enviable condition in regard to her finances. She is the envy of the country. Her Comptroller, in a recent report, presents the following flattering picture of her condition:

The State is out of debt with a surplus of over \$1,000,000 in the Treasury, a permanent fund of \$1,000,000, an unappropriated public fund, estimated at \$100,000,000,000,000, which, if judiciously used, would subserve all the purposes of taxation, a tax lighter than is imposed on any other people, and which is adequate to all the wants of the government.

The aggregate amount of taxable property is nearly \$100,000,000, an increase of \$22,500,000 over the previous year.

**MURDER AT CINCINNATI.**—We learn from the Statesman that about three o'clock on Sunday morning last, while a party of four were playing cards, a dispute arose between a man by the name of Thomas Moore and another person whose name we could not ascertain, when Moore sought up a corn-cutter and literally cut his antagonist to pieces. The murderer was arrested and lodged in jail.

**TEN DRINKERS.**—John Dolan, Thomas Hallin, and Carlino, his wife, and Charles, a slave of Mary Lewis and a servant at the National Hotel, were arrested on Friday evening for drunkenness and disorderly conduct, and were before the Police Court on Saturday. Dolan and Hallin and wife were sent to the work-house, and the negro was sentenced to receive ten stripes.

**CINCINNATI COAL DEALERS.**—It will be remembered that almost all the coal dealers of Cincinnati were recently arrested upon the charge of selling short measure. They were not tried upon the merits of the charge, but were dismissed upon a technical informality, it being shown that the City Weights had not been legally appointed to the office.

**The Madison Courier** of Saturday, says that four freight cars broke loose from the locomotive this morning, at the head of the inclined plane, and ran down to the foot where they switched off into the bottom between the Palmer and Mills and Clough's Car Factory, and were broken to pieces. Nobody hurt.

**PRESIDENT DICKERSON MARSHALL.**—M. Neal, Esq., of the Neal House in this city, has in his possession a splendid gold watch, sent through his car from a jeweler in New York, as a present to Hon. Dickerison Marshall. It is a contribution from certain citizens of Shelby county.

**THE HOG MARKET.**—There is a decided improvement in hogs, with sales at \$5. The number slaughtered around the Falls to last evening was 73,000. All the packing establishments were in full operation yesterday. The number slaughtered during the day was 7,360.

**ANAGER OF A SWINDLER.**—Officer Bligh arrested a man yesterday, who is charged with a connection with various patty swindlers. Among other delinquencies, he paid a board-hill at the Gathright House with a note supposed to be from certain citizens of Shelby county.

**DISCOVERY OF A COAL MINE.**—We learn that Captain Knapp, and others, made a discovery of coal yesterday, at St. Stephen's graveyard, near this city. We have not ascertained the extent or quality of the deposit.

**THE CINCINNATI COMMERCIAL.**—It learns from the officers of the mail steamer *Mess Moeller*, that five or six houses, including the principal hotel, in Bethlehem, Ind., were destroyed by fire on Thursday.

**SHOULD HAVE BEEN BLIND.**—A correspondent of the New York Evening Post says that Gov. Gardner, of Massachusetts, has appointed a deaf and dumb man a Justice of the Peace in that State.

**RETURNED.**—Captain Andrews, of this city, who went to Niagara some months ago, has returned to this city with a shattered condition. He is at present at Owen's Hotel.

**BUSOLARY.**—The residence and grocery of Mr. Vogt, at the corner of Jackson and Chestnut streets, was entered by burglars, on Friday night last, and robbed of \$300 in cash.

**ANOTHER GRAND CONCERT.**—It is sufficient to announce that the Strakosch Trompe, with Mme. Parodi, will give their second and last concert at Mozart Hall this evening.

**ANOTHER GAM.**—The Gem saloon, at the corner of Ninth and Jefferson streets, has passed into the hands of Mr. Wm. Badger, and has been improved and beautified.

**FIRE.**—The roof of the Hotel Da Raine, corner of Second and Main streets, caught fire about daylight on Saturday, but was put out without doing much damage.

**FIRE ALARMS.**—There were two alarms of fire yesterday, the one at ten o'clock and the other about four. There was no fire either of them, however.

**ARREST.**—We learn that a young man was arrested at the Washington Engine House yesterday, for inducing a false alarm of fire.

**We refer shipper, and others interested, to the list of steamboat advertisements published under appropriate head this morning.**

**IN THE CITY.**—Judge Storer, of the Court of Appeals, spent the Sabbath in this city, and will proceed to Frankfort this morning.

**The New Albany Tribune** has entered upon exterminating warfare against the coffee-houses of that city.

**There was a slight row among the frenes, at the alarm yesterday morning. No one was hurt, however.**

**COURT OF APPEALS.**—This tribunal will convene at the capital of the State to-day.

**Mrs. L. L. Deming will give a grand concert in Madison to-morrow evening.**

### Fact and Fancy.

From an official speech made by Judge Johnston Saturday morning, before the Police Court, we gleaned some information in reference to a **REBELLIOUS CITY MARSHAL**.

Which is worthy of mention in curdly record of facts. It appears that Marshal Kidd has not only been delinquent in the discharge of his general duties, but that in his pecuniary relations to the City Court he has been very remiss. His Honor Judge Johnston stated that complaints were made that, notwithstanding large amounts of fines were assessed by his court, no revenue was derived by the city from that source. Litigants also complained that they were kept out of their just dues long after their suits had been adjudicated; and the greatest confusion existed in that department of the city government under the control and influence of the City Marshal. His Honor, in the same connection, announced that not even the first exception which had been placed in the hands of that official, two years ago, had yet been returned. Notwithstanding notice after notice had been served upon the Marshal, or had been ordered to be served, commanding him to show cause of such delinquency, the court could get no satisfaction from the source.

### THE CORRECTIVE.

It is very plain to our mind that there is no necessity for the existence of these evils. If the City Court had adopted a prompt and decided course with the delinquent official in question, the necessity for these complaints had been obviated. If the City Marshal is an officer of the City Court, he is certainly amenable to that tribunal to the extent of such connection. A sheriff is not created by the Circuit Court, but no one imagines that Officer Megowan could tamper with Judge Bullock to the extent of neglecting the mandates of that tribunal.

A private dispatch from Pittsburgh Saturday night, says that there were four feet water in the channel, and the river rising rapidly, with continued rains.

The river at this point was again at a stand last evening, with prospects of rain.

The murderer was arrested and lodged in jail.

**A NEW RULE.**

Which it would be well enough for our policemen, and offenders against the law generally, to remember. It has been very common recently to harass the offices of the City Court with applications, on the part of offenders, at irregular hours, to be released from confinement. The court should not sentence Milligan to be hung, the mob would then hang both together.

At West Union, the jailor was absent when the attack was made on the jail. But the Sheriff of the county, who was then in confinement, interfered with the Sheriff and his wife about a year ago.

The mob spirit spread so rapidly that it was proposed to the Manchester crowd to wait a little, and if the court should not sentence Milligan to be hung, the mob would then hang both together.
